## HIRA

CAPABILITY STATEMENT 2021

“RAW HIRE - setting the standard  
in long-term fleet hire across  
Western Australia and beyond.”

## THE RAW TRUTH

Supplying quality, late-model vehicles for  
civils, major projects, mine-sites,  
quarantine zones and remote projects.

**KIMBERLEY | PILBARA | GASCOYNE  
MID-WEST | WHEATBELT | PEEL  
BARROW ISLAND | PERTH METRO  
SOUTH-WEST | GREAT SOUTHERN  
GOLDFIELDS-ESPERANCE | AND BEYOND...**

“ A growing business needs to be responsive, deliver efficiently and operate safely. To support this we need vehicles that can do the same in rugged and demanding environments. Raw Hire has been there with us on our journey of growth, providing us with safe, compliant and quality vehicles that support our multi-site operations. ”

**Cory Byers**  
Managing Director  
KBSS Engineering

## COMPANY OVERVIEW

Raw Hire is a privately owned Western Australian fleet hire company, offering the ultimate in compliance, flexibility and quality for both the resource and civil sectors.

For more than 20 years, Raw Hire has been a proven supplier of choice for projects from the South West to the Kimberley and across Australia, with a focus on providing professional, responsive service.

Raw Hire's compact and experienced team is committed to ensuring professional and valued partnerships with their clients. Every customer is assigned a dedicated customer service coordinator, ensuring seamless communication and operational management.

## OUR VALUES

### PROFESSIONAL

We expect and deliver excellence in everything we do.

### AGILE

We pride ourselves on our responsiveness, from enquiry to mobilisation and beyond.

### COLLABORATIVE

We work alongside our clients to ensure a seamless experience at every stage.

“Raw Hire is proud to be a contributor to many community, sporting and cultural organisations across Western Australia.”

## STRENGTHS

Raw Hire understands the importance of having a reliable, late model fleet for any project. It's why every light vehicle is replaced at three years old or 100,000 km.

Full scheduled servicing is included with every contract, with no extra service fees or hidden costs, while for onsite servicing, compliant service kits are supplied.

Because we understand safety and compliance are of the utmost importance, every Raw Hire vehicle is specified to the highest level of mine specification.

**Customised** fleet is a specialty of Raw Hire, with the seamless fulfillment of vehicle requirements specific to either location or project.

Raw Hire provides a streamlined and efficient process for the **mobilisation** of fleet from its point of origin to site and back again.

Supporting companies in **growth and expansion**, Raw Hire can procure and mobilise fleet right across Australia, reducing risk by continuing valued and trusted working partnerships.

The Raw Hire team has a comprehensive understanding of the complexities of off-shore locations and will ensure vehicles are specified to meet all requirements including quarantine and safety before mobilisation.

“ Through quality planning and forecasting we have confidence in an end-to-end service vehicle provider that offers a point of difference, as we need to ensure that the assets are being utilised and cost recovered to the equipment's full potential, minimising down time.”

**Stephen Easterbrook**  
Managing Director, Bright Pty Ltd.

**In-Vehicle Monitoring Systems (IVMS)** are a standard feature on every new Raw Hire vehicle, providing essential data capabilities.

- Real-time tracking
- Journey Management Planning
- Remote Driving
- Maintenance Recording/Reporting
- Geo-fencing
- Ignition detecting
- Run hour monitoring
- Tracking via mobile devices
